

Sudheesh Sreenilayam

Technical Program Management (TPM) & Operations Leader

Driving efficiency via Data Strategy, Process Automation, & Global Stakeholder Management

Chicago, Illinois, United States, +1 (312) 868-9096, sudhisreenilayam13@outlook.com, [LinkedIn](#), [GitHub](#)

Summary

Operations & Program Leader with 8+ years of experience managing large-scale service delivery roadmaps and cross-functional teams (**200+ FTEs**) for **Fortune 1** clients. Expert in bridging the gap between Operations and Engineering, translating complex business requirements into scalable technical solutions. Proven track record of leading workflow automation initiatives that drove **~\$900k in cost efficiency** and **40% reporting optimization**. Currently leveraging an **M.S. in Business Analytics** to combine strategic program leadership with data-driven decision-making (**SQL, Python, Power BI**).

Skills

Program Management: Agile/Scrum Methodologies, Roadmap Planning, Stakeholder Management, User Acceptance Testing (UAT), Risk Mitigation, Cross-Functional Leadership.

Technical Stack: **SQL, Tableau, Power BI, Python, Jira, MS Excel (Advanced), AWS Ecosystem** (S3, Quicksight exposure), Minitab

Operational: Lean Six Sigma (**Green Belt**), Root Cause Analysis, KPI Definition, SLA Management, Process Mapping.

Professional Experience

Sutherland Global Services | *Strategic Partner to Fortune 1 Global E-Commerce & Logistics Client* | 2016 – 2024

Rapidly promoted 4 times in 8 years, progressing from Entry-Level Associate to Senior Manager overseeing 200+ FTEs and leading strategic, data-driven operational improvements.

Senior Associate Manager – Service Delivery & Operations | Sep 2023 – Aug 2024

- **Strategic Program Leadership:** Directed the end-to-end operational roadmap for North America & UK support operations, managing a tiered team of **200+ FTEs** to ensure **100% SLA adherence**.
- **Product & Workflow Automation:** Spearheaded the "Driver Self-Service" initiative, identifying a **66% defect rate** in manual status updates. Collaborated with Client Engineering teams to propose an AI-driven resolution path, projected to save **~\$900k annually**.
- **Stakeholder Management (QBRs):** Facilitated Weekly, Monthly and Quarterly Business Reviews (**QBRs**) with **Client Senior Leadership**, presenting data-driven performance insights that influenced strategic resource planning for the NA region.
- **Tech Implementation:** Managed the rollout of new analytics dashboards (**Power BI**) across the delivery center, improving reporting efficiency by **40%**.

Associate Manager – Operations & Process Improvement | Dec 2021 – Aug 2023

- **Process Optimization:** Led a cross-functional "Efficiency Task Force" that utilized statistical analysis to identify bottlenecks, resulting in a **2.7% gain** in operational throughput.
- **Capacity Planning:** Designed and implemented a predictive staffing model to align workforce availability with forecasted ticket volume, directly reducing overtime costs by **15%**.
- **Dashboard Deployment:** Partnered with the BI team to launch real-time performance trackers, enabling frontline managers to drive a **7% increase** in successful delivery resolution.

Lead, Service Delivery Management | Dec 2019 – Nov 2021

- **Service Design:** Conducted **A/B testing** on service scripts, leading to a **16% improvement** in First Call Resolution (FCR).
- **Performance Strategy:** Automated manual reporting workflows, saving **5+ hours** of leadership time weekly.

Early Career (Promoted from Associate to Senior Subject Matter Expert) | Jun 2016 – Nov 2019

- Rapidly promoted through the ranks (Associate -> SME -> Lead) based on top-tier performance, including "**Best Performer**" awards for 6 consecutive months.
- Led a pilot team of 20 representatives, implementing a data-driven feedback model that increased team efficiency by **2.4%**.

Education

Roosevelt University, Chicago, Illinois | **Master of Science in Business Analytics** | Expected Completion by May 2026
- GPA – 4.0/4.0
School Of Engineering, CUSAT, India | Bachelor of Technology in Electronics & Communication Engineering

Academic & Personal Projects

Superstore Profitability & Strategic Recovery Capstone (Python & Power BI)

- **Strategic Roadmap:** Developed a 90-day execution plan to reverse profit stagnation, identifying **\$218k in annual recovery** by restructuring pricing policies and shipping incentives.
- **Policy Optimization:** Leveraged regression insights to prove internal discounting was the primary loss driver, proposing a **15% hard cap** on specific SKUs to secure an immediate **\$106k margin gain**.

Fake Job Posting Detection (Python & Machine Learning)

- **End-to-End Development:** Managed the full development lifecycle of a fraud detection pipeline, addressing a critical online security risk.
 - **Technical Execution:** Oversaw data ingestion (Web Scraping via **BeautifulSoup**), feature engineering (NLP/TF-IDF), and model validation, achieving an **F1-Score of 0.84** with Support Vector Machines.
-

Certification:

- **Lean Six Sigma Green Belt**
- **Google Data Analytics Certificate** (in progress)
